Good morning.

For those of you that participated in yesterday's monitoring for methylene chloride, methyl alcohol, hexane, and/or acetonitrile with passive or active monitors, would you please respond to this email and briefly describe your day (i.e., I worked in the lab approximate 4 hrs from 0800 - 1200, I participated with a passive monitor for hexane).

Your cooperation this whole week is greatly appreciated. Please feel free to contact us if you have any questions, suggestions, and/or concerns.

Thanks

Susan
